Jeffrey Nanzer received his Ph.D. in electrical engineering from The University of Texas at Austin in 2008. In 2016, he joined the Department of Electrical and Computer Engineering at Michigan State University where he is currently an Associate Professor. He directs MSU's Electromagnetics Laboratory, which consists of the Antenna Lab, the Radar Lab, and the Wireless Lab. He has published more than 200 papers, one book, and two book chapters, and has five patents. Dr. Nanzer was a recipient of the Google Research Scholar Awards in 2022 and in 2023, the IEEE MTT-S Outstanding Young Engineer Award in 2019, the DARPA Director's Fellowship in 2019, the National Science Foundation (NSF) CAREER Award in 2018, and the DARPA Young Faculty Award in 2017. He and his students have received several best paper awards, including First Place at the 2023 IEEE 2023 International Microwave Symposium. He is currently a Distinguished Microwave Lecturer of the IEEE Microwave Theory and Techniques Society (Tatsuo Itoh Class of 2022–2024). His research interests are in the areas of distributed wireless systems, antennas, arrays, radar, and millimeter-wave imaging.
