

Antenna Measurement Techniques Association
Distinguished Achievement Award

Presented to

Dr. Peter J. Collins

The 2018 AMTA Distinguished Achievement Award is presented to ***Dr. Peter J. Collins***, who throughout his career has exemplified and promoted the goals and objectives of the ANTENNA MEASUREMENT TECHNIQUES ASSOCIATION.

The AMTA hereby cites Dr. Peter J. Collins for his:

- Contributions through service to the United States of America with 20 years of Active Duty service in the United States Air Force.
- Contributions through service on the Antenna Measurement Techniques Association Board of Directors from 2013 – 2016 serving in the positions of Secretary, President and Past-President.
- Contributions through education as a AFIT Professor of Electrical Engineering teaching in the areas of low observables, electromagnetic materials design, remote sensing and the foundational disciplines of electromagnetic theory, computational electromagnetics and signature methodology.
- Contributions through mentoring by serving as advisor to more than 40 graduate students and service on numerous master and doctoral committees.
- Contributions through publication by authoring or co-authoring more than 90 technical papers and 2 book chapters
- Many years of continuous support of the AMTA community.

For outstanding and pioneering contributions to the practice of antenna design, analysis, and measurements.
