

**Antenna Measurement Techniques Association**  
***Distinguished Achievement Award***

*Presented to*  
**Ronald C. Wittmann**

The 2011 AMTA Distinguish Achievement Award is presented to ***Ronald C. Wittmann***, who throughout his career has exemplified and promoted the goals and objectives of the ANTENNA MEASUREMENT TECHNIQUES ASSOCIATION. The AMTA hereby cites Ronald C. Wittmann:

- For his contributions to the development of probe-position correction methods at NIST.
- For his contributions to measurements and theory for the interior spherical near-field problem.
- For his contributions as a lecturer at the NIST biannual near-field short course for more than 25 years.
- For his many years of service on the AMTA Technical Committee.

***For distinguished contributions to the application of the theory and practice of remote sensing, near-field antenna measurements, and radar cross section measurements.***
